JOURNAL OF PERIODONTOLOGY

Subject Index to Volume 60, Numbers 1 through 12 (1989)

A

ABSTRACTS 229, 416, 728
ACTINOBACILLUS ACTINOMYCETEMCOMITANS
Actinobacillus actinomycetemcomitans serotypes and leukotoxicity in Korean localized juvenile periodontitis. Chung, H.-J. et al. 506
Clinical and microbiological characteristics of treated periodontitis patients on maintenance care. Listgarten, M. A. et al. 452
Prevalence of periodontal breakdown in adolescents and presence of *Actinobacillus actinomycetemcomitans* in subjects with attachment loss. Van der Velden, U. et al. 604
ACTINOMYCES NAESLUNDII
Detachment of oral bacteria from saliva-coated hydroxyapatite by human polymorphonuclear leukocytes. Erard, J.-C. et al. 211
ACTINOMYCES VISCOSUS
Caries on root surfaces exposed following gingivectomy in conventional rats infected with *Streptococcus sobrinus* and *Actinomyces viscosus*. Firestone, A. R. et al. 624
Detachment of oral bacteria from saliva-coated hydroxyapatite by human polymorphonuclear leukocytes. Erard, J.-C. et al. 211
The effect of ofloxacin on experimental periodontitis in hamsters infected with *Actinomyces viscosus* ATCC 15987. Kametaka, S. et al. 285
ADOLESCENCE
Prevalence of periodontal breakdown in adolescents and presence of *Actinobacillus actinomycetemcomitans* in subjects with attachment loss. Van der Velden, U. et al. 604
AIDS
Unusual periodontal findings in an AIDS patient with Burkitt's lymphoma. A case report. Vallejo, G. H. et al.
ALVEOLAR BONE
Altering the progression of human alveolar bone loss with the non-steroidal anti-inflammatory drug fluribiprofen. Williams, R. C. et al. 485
Effect of low-protein diet on alveolar bone loss in Streptozotocin-induced diabetic rats. Johnson, R. B. et al. 264
The hard evidence of alveolar bone loss in early hominids of Southern Africa. A short communication. Ripamonti, U. 118
Relationship between the radiographic periodontal defect angle and healing after treatment. Steffensen, B. et al. 248
AMERICAN ACADEMY OF PERIODONTOLOGY
Annual meeting, 75th, 1989, Program. 421
President, 1988. 1
Presidential address. 225
Research forum abstracts. 728
AMERICAN DENTAL ASSOCIATION
Summary of tne Workshop on Temporomandibular Disorders sponsored by the American Dental Association. 222
ANTIBIOTICS
Effects of penicillin and erythromycin on the clinical parameters of the periodontium. Helovuo, H. et al. 467
ANTI-INFLAMMATORY AGENTS
Altering the progression of human alveolar bone loss with the non-steroidal anti-inflammatory drug flurbiprofen. Williams, R. C. et al. 485
ATTITUDE TO HEALTH
The effect of health beliefs on the compliance of periodontal patients with oral hygiene instructions. Kuhner, M. K. et al. 51

B

BACTEROIDES GINGIVALIS
Antibodies to *Bacteroides gingivalis* in patients with treated and untreated periodontal diseases. Murray, P. A. et al. 96
Clinical and microbiological characteristics of treated periodontitis patients on maintenance care. Listgarten, M. A. et al. 452
The effect of 2% chlorhexidine digluconate irrigation on clinical parameters and the level of *Bacteroides gingivalis* in periodontal pockets. Southard, S. R. et al. 302
Suppression of fibroblast growth by *Bacteroides gingivalis* endotoxin is not reduced by serum lipoproteins. Layman, D. L. et al. 259
BACTEROIDES INTERMEDIUS
Clinical and microbiological characteristics of treated periodontitis patients on maintenance care. Listgarten, M. A. et al. 452
BIOCOMPATIBILITY
Different cross-linked types of collagen implanted in rat palatal gingiva. Minabe, M. et al. 35
BLOOD VESSELS
Periosteal microvasculature in the dog alveolar process. Nobuto, T. et al. 709
BONE AND BONES
Comparison of freeze-dried bone allograft and porous hydroxylapatite in human periodontal defects. Barnett, J. D. et al. 231
The effect of local doxycycline with and without tricalcium phosphate on the regenerative healing potential of periodontal osseous defects in dogs. Al-Ali, W. et al. 582
Histologic evaluation of bone and inductive proteins complexed with coralline hydroxylapatite in an extraskeletal site of the rat. Glass, D. A. et al. 121
Histologic evaluation of nw attachment apparatus formation in humans. Part I. Bowers, G. M. et al. 664

Histologic evaluation of new attachment apparatus formation in humans. Part II. Bowers, G. M. et al. 675
Histologic evaluation of new attachment apparatus formation in humans. Part III. Bowers, G. M. et al. 683
BONE, decalcified
Comparison of decalcified freeze-dried bone allograft and porous particulate hydroxyapatite in human periodontal osseous defects. Bowen, J. A. et al. 647
Histologic evaluation of new attachment apparatus formation in humans. Part II. Bowers, G. M. et al. 675
Histologic evaluation of new attachment apparatus formation in humans. Part III. Bowers, G. M. et al. 683
BONE, demineralized
A comparison of freeze-dried bone allograft and demineralized freeze-dried bone allograft in human periodontal osseous defects. Rummelhart, J. M. et al. 655
The osteogenic potential of two human demineralized bone preparations using a xenogeneic model. Marinak, K. W. et al. 12
BONE LOSS
Altering the progression of human alveolar bone loss with the non-steroidal anti-inflammatory drug flurbiprofen. Williams, R. C. et al. 485
Effect of low-protein diet on alveolar bone loss in Streptozotocin-induced diabetic rats. Johnson, R. B. et al. 264
The hard evidence of alveolar bone loss in early hominids of Southern Africa. A short communication. Ripamonti, U. 118
Proximal bone loss adjacent to periodontally "hopeless" teeth with and without extraction. Machtei, E. E. et al. 512
BURKITT'S LYMPHONA
Unusual periodontal findings in an AIDS patient with Burkitt's lymphoma. A case report. Vallejo, G. H. et al.

C

CALCULUS, prevention
The effect of citric acid on retained plaque and calculus. A short communication. Tanaka, K. et al. 81
CAREERS
Early career experiences of young periodontists. Born, D. O. et al. 217
CARIES, etiology
Caries on root surfaces exposed following gingivectomy in conventional rats infected with *Streptococcus sobrinus* and *Actinomyces viscosus*. Firestone, A. R. et al. 624
CELLS, endothelial
Repopulation of dentin surfaces by periodontal ligament cells and endothelial cells. Effect of basic fibroblast growth factor. Terranova, V. P. 293
CELLS, periodontal ligament
Repopulation of dentin surfaces by periodontal ligament cells and endothelial cells. Effect of basic fibroblast growth factor. Terranova, V. P. 293
CEMENTUM
Histologic evaluation of new attachment apparatus formation in humans. Part I. Bowers, G. M. et al. 664
Histologic evaluation of new attachment apparatus formation in humans. Part II. Bowers, G. M. et al. 675
Histologic evaluation of new attachment apparatus formation in humans. Part III. Bowers, G. M. et al. 683
CEMENTUM, demineralized
Cell and fiber attachment to demineralized cementum from normal root surfaces. Hanes, P. J. et al. 188
CERAMIC, durapatite
5-Year evaluation of durapatite ceramic alloplastic implants in periodontal osseous defects. Yukna, R. A. et al. 544
CHLORHEXIDINE, therapeutic use
A clinical comparison of antibacterial mouthrinses: Effects of chlorhexidine, phenolics, and sanguinarine on dental plaque and gingivitis. Grossman, E. et al. 435
Clinical enhancement of post-periodontal surgical therapy by a 0.12% chlorhexidine gluconate mouthrinse. Sanz, M. et al. 570
Comparison of chlorhexidine delivery by mouthwash and spray on plaque accumulation. Kalaga, A. et al. 127
The effect of a 0.125% chlorhexidine rinse on inflammation after periodonatal surgery. Vaughn, M. E. et al. 704
The effect of 2% chlorhexidine digluconate irrigation on clinical parameters and the level of *Bacteroides gingivalis* in periodontal pockets. Southard, S. R. et al. 302
Effect of 0.12% chlorhexidine on bacterial recolonization following periodontal surgery. Newman, M. G. et al. 577
In vitro activity of a chlorhexidine-containing mouthwash against subgingival bacteria. Wade, W. G. et al. 521
The use of 0.2% chlorhexidine spray as an adjunct to oral hygiene and gingival health in physically and mentally handicapped adults. Kalaga, A. et al. 381
Letter to the editor. Newman, H. 414
CITRIC ACID
The effect of citric acid on retained plaque and calculus. A short communication. Tanaka, K. et al. 81
Evaluating the anti-plaque capabilities of a copper-containing prophylaxis paste. Moore, R. L. et al. 78
COLLAGEN
Application of a local drug delivery system to periodontal therapy. I. Development of collagen preparations with immobilized tetracycline. Minabe, M. et al. 113
Different cross-linked types of collagen implanted in rat palatal gingiva. Minabe, M. et al. 35
The effect of various concentrations of collagen barrier on periodontal wound healing. Kodama, T. et al. 205
COLLAGEN, N-propeptide alpha I type I
Connective tissue-association proteins in crevicular fluid: Potential markers for periodontal diseases. Bowers, M. R. et al. 448
CONNECTIVE TISSUE
Connective tissue-associated proteins in crevicular fluid: Potential markers for periodontal diseases. Bowers, M. R. et al. 448
CONNECTIVE TISSUE, attachment
Cell and fiber attachment to demineralized cementum from normal root surfaces. Hanes, P. J. et al. 188
Gingival resistance to probing forces. I. Determination of optimal probe diameter. Keagle, J. G. et al. 167
Gingival resistance to probing forces. II. The effect of inflammation and pressure on probe displacement in beagle dog gingivitis. Garnick, J. J. et al. 498
Repopulation of dentin surfaces by periodontal ligament cells and endothelial cells. Effect of basic fibroblast growth factor. Terranova, V. P. et al. 293

COPPER
Evaluating the anti-plaque capabilities of a copper-containing prophylaxis paste. Moore, R. L. et al. 78
CORONECTOMY
Histologic evaluation of new attachmant apparatus formation in humans. Part I. Bowers, G. M. et al. 664
COTININE
Cotinine in saliva and gingival crevicular fluid of smokers with periodontal disease. McGuire, J. R. et al. 176
CURETTAGE
Histologic evaluation of new attachmant apparatus formation in humans. Part I. Bowers, G. M. et al. 664

D

DENTAL CARE FOR THE HANDICAPPED
The use of 0.2% chlorhexidine spray as an adjunct to oral hygiene and gingival health in physically and mentally handicapped adults. Kalaga, A. et al. 381
DENTAL CARE, needs
An estimate of periodontal treatment needs in the U.S. based on epidemiologic data. Oliver, R. C. et al. 371
DENTAL HEALTH SURVEYS
Guest Editorial: Estimating periodontal needs from epidemiological data. Douglass, C. W. 417
Periodontal diseases in the U.S. in 1981: prevalence, severity, extent, and role in tooth mortality. Brown, L. J. et al. 363
DENTAL INSTRUMENTS
The effectiveness of two sonic and two ultrasonic scaler tips in furcations. Patterson, M. et al. 325
In vitro effectiveness of a newly-designed ultrasonic scaler tip for furcation areas. Oda, S. et al. 634
Scanning electron microscope evaluation of wear of stainless steel and high carbon steel curettes. Tal, H. et al. 320
DENTAL PLAQUE, prevention
The effect of a 0.125% chlorhexidine rinse on inflammation after periodontal surgery. Vaughn, M. E. et al. 704
DENTIFRICE, therapeutic use
Clinical effect of a sanguinaria dentifrice on plaque and gingivitis in adults. Mallatt, M. E. et al. 91
DENTIN, demineralized
Neovascularization of surface demineralized dentin. Tweden, K. S. et al. 460
DENTIN, SENSITIVE, therapy
Effectiveness of sodium fluoride on tooth hypersensitivity with and without iontophoresis. Kern, D. A. et al. 386
Effects of potassium oxalate on dentin hypersensitivity *in vivo*. Muzzin, K. B. et al. 151
DIABETES, insulin-dependent
Humoral immune response to selected subgingival plaque microorganisms in insulin-dependent diabetic children. Morinishi, T. et al. 199
Morphotypes of the subgingival microflora in diabetic adolescents in Finland. Sandholm, L. et al. 526
DIABETES MELLITUS
The glycosylated hemoglobin assay for diabetes: Its value to the periodontist. Two case reports. Piché, J. E. et al. 640
Morphotypes of the subgingival microflora in diabetic adolescents in Finland. Sandholm, L. et al. 526
DIABETES, Streptozotocin-induced
Effect of low-protein diet on alveolar bone loss in Streptozotocin-induced diabetic rats. Johnson, R. B. et al. 264
DIET, low-protein
Effect of low-protein diet on alveolar bone loss in Streptozotocin-induced diabetic rats. Johnson, R. B. et al. 264
DOWN'S SYNDROME
Defective neutrophil chemotaxis in Down's syndrome patients and its relationship to periodontal destruction. Izumi, Y. et al. 238
DOXYCYCLINE, therapeutic use
The effect of local doxycycline with and without tricalcium phosphate on the regenerative healing potential of periodontal osseous defects in dogs. Al-Ali, W. et al. 582
DRUG ADMINISTRATION
Application of a local drug delivery system to periodontal therapy. I. Development of collagen preparations with immobilized tetracycline. Minabe, M. et al. 113
Effect of a chemotherapeutic agent delivered by an oral irrigation device on plaque, gingivitis, and subgingival microflora. Ciancio, S. G. et al. 310
Subgingival administration of tetracycline on a collagen film. Minabe, M. et al. 552

E

EDITORIAL 2, 417, 478, 591, 593
EIKENELLA CORRODENS
Eikenella corrodens in the human oral cavity. Chen, C-K C. et al. 611
ENDOTHELIAL ATTACHMENT
Repopulation of dentin surfaces by periodontal ligament cells and endothelial cells. Effect of basic fibroblast growth factor. Terranova, V. P. et al. 293
ENDOTOXINS
Suppression of fibroblast growth by *Bacteroides gingivalis* endotoxin is not reduced by serum lipoproteins. Layman, D. L. et al. 259
EPITHELIAL ATTACHMENT
Cell and fiber attachment to demineralized cementum from normal root surfaces. Hanes, P. J. et al. 188
ERYTHROMYCIN, therapeutic use
Effects of penicillin and erythromycin on the clinical parameters of the peridontium. Helovuo, H. et al. 467
ESCHERICHIA COLI
Suppression of fibroblast growth by *Bacteroides gingivalis* endotoxin is not reduced by serum lipoproteins. Layman, D. L. et al. 259
EUGENOL, therapeutic use
Effect of periodontal dressing on human gingival fibroblasts in vitro. Eber, R. M. et al. 429

F

FIBER OPTICS
Fiber optic probe augmented sonic scaling versus conventional sonic scaling. Johnson, G. K. et al. 131
FIBROBLASTS
Effect of periodontal dressings on human gingival fibroblasts in vitro. Eber, R. M. et al. 429

Periodontal ligament cells and gingival fibroblasts respond differently to attachment factors in vitro. Somerman, M. J. et al. 73
Suppression of fibroblast growth by *Bacteroides gingivalis* endotoxin is not reduced by serum lipoproteins. Layman, D. L. et al. 259
FIBROGENESIS
Periosteal microvasculature in the dog alveolar process. Nobuto, T. et al. 709
FLOSSING
Comparative effectiveness of flossing and brushing in reducing interproximal bleeding. Graves, R. C. et al. 243
FLURBIPROFEN
Altering the progression of human alveolar bone loss with the non-steroidal anti-inflammatory drug flurbiprofen. Williams, R. C. et al. 485
FURCATION
The effectiveness of two sonic and two ultrasonic scaler tips in furcations. Patterson, M. et al. 325
In vitro effectiveness of a newly-designed ultrasonic scaler tip for furcation areas. Oda, S. et al. 634
Relationship between the radiographic periodontal defect angle and healing after treatment. Steffensen, B. et al. 248
FURCATION, therapy
The effect of 1% metronidazole gel in routine maintenance of persistent furcation involvement in human beings. Needleman, I. G. et al. 699
Evaluation of guided tissue regeneration in Class II furcation defects. A clinical re-entry study. Lekovic, V. et al. 694
The prognosis of tunnel preparations in treatment of class III furcations. A follow-up study. Hellden, L. B. et al. 182

G

GINGIVA
Computer-based thermal imaging of human gingiva: Preliminary investigation. Barnett, M. L. et al. 628
Periodontal ligament cells and gingival fibroblasts respond differently to attachment factors *in vitro*. Somerman, M. J. et al. 73
GINGIVA, anatomy
Coronal positioning of existing gingiva: Short term results in the treatment of shallow marginal tissue recession. Allen, E. P. et al. 316
GINGIVA, bleeding
Comparative effectiveness of flossing and brushing in reducing interproximal bleeding. Graves, R. C. et al. 243
The effectiveness of a counter-rotary action powered toothbrush and conventional toothbrush in plaque removal and gingival bleeding. A short term study. Killoy, W. J. et al. 473
Effects of personal oral hygiene and subgingival scaling on bleeding interdental gingiva. Caton, J. et al. 84
GINGIVA, microbiology
Effect of a chemotherapeutic agent delivered by an oral irrigation device on plaque, gingivitis, and subgingival microflora. Ciancio, S. G. et al. 310
GINGIVA, surgery
Coronal positioning of existing gingiva: Short term results in the treatment of shallow marginal tissue recession. Allen, E. P. et al. 316
The effect of an antimicrobial mouthrinse on early healing of gingival flap surgery wounds. Zambon, J. J. et al. 31
GINGIVA, ultrastructure
Chemotaxis of gingival neutrophils: Scanning electron microscopy. Farber, P. A. 540
GINGIVAL CREVICULAR FLUID
Connective tissue-associated proteins in crevicular fluid: Potential markers for periodontal diseases. Bowers, M. R. et al. 448
Cotinine in saliva and gingival crevicular fluid of smokers with periodontal disease. McGuire, J. R. et al. 176
IgG subclasses in gingival crevicular fluid from active versus stable periodontal sites. Reinhardt, R. A. et al. 44
GINGIVAL DISEASES
The gingival effects of dental airpolishing as evaluated by scanning electron microscopy. Kontturi-Narhi, V. et al. 19
GINGIVAL DISEASES, instrumentation
Gingival resistance to probing forces. I. Determination of optimal probe diameter. Keagle, J. G. et al. 167
Gingival resistance to probing forces. II. The effect of inflammation and pressure on probe displacement in beagle dog gingivitis. Garnick, J. J. et al. 498
GINGIVAL DISEASES, therapy
Effects of personal oral hygiene and subgingival scaling on bleeding interdental gingiva. Caton, J. et al. 84
GINGIVAL INDEX
Correlations among gingival indices: A methodology study. Lobene, R. R. et al. 159
The relationship between gingivitis and plaque levels. Breuer, M. M. et al. 172
GINGIVAL RECESSION
Coronal positioning of existing gingiva: Short term results in the treatment of shallow marginal tissue recession. Allen, E. P. et al. 316
Occurrence of gingival recession in adults. Vehkalahti, M. 599
GINGIVITIS, diagnosis
The relationship between gingivitis and plaque levels. Breuer, M. M. et al. 172
GINGIVITIS, drug therapy
Effect of a chemotherapeutic agent delivered by an oral irrigation device on plaque, gingivitis, and subgingival microflora. Ciancio, S. G. et al. 310
GINGIVITIS, instrumentation
Gingival resistance to probing forces. II. The effect of inflammation and pressure on probe displacement in beagle dog gingivitis. Garnick, J. J. et al. 498
GINGIVITIS, prevention
In vitro activity of a chlorhexidine-containing mouthwash against subgingival bacteria. Wade, W. G. et al. 521
GINGIVITIS, therapy
A clinical comparison of antibacterial mouthrinses: Effects of chlorhexidine, phenolics, and sanguinarine on dental plaque and gingivitis. Grossman, E. et al. 435
Clinical effect of a sanguinaria dentifrice on plaque and gingivitis in adults. Mallatt, M. E. et al. 91
The effect of a new electric toothbrush on supragingival plaque and gingivitis. Baab, D. A. et al. 336

GRAFTS
Buccal mucosal graft: Maintenance of phenotype for 15 years. A case report. Checchi, L. et al. 163
Comparison of decalcified freeze-dried bone allograft and porous particulate hydroxyapatite in human periodontal osseous defects. Bowen, J. A. et al. 647
A Comparison of freeze-dried allograft and demineralized freeze-dried bone allograft in human periodontal osseous defects. Rummelhart, J. M. et al. 655
Comparison of freeze-dried bone allograft and porous hydroxylapatite in human periodontal defects. Barnett, J. D. et al. 231
Effect of various graft materials with tetracycline in localized juvenile periodontitis. Evans, G. H. et al. 491
Histologic evaluation of new attachment apparatus formation in humans. Part II. Bowers, G. M. et al. 675
Histologic evaluation of new attachment apparatus formation in humans. Part III. Bowers, G. M. et al. 683
Human freeze-dried dura mater allografts as a periodontal biological bandage. Zaner, D. J. et al. 617
Porous hydroxyapatite grafts in chronic subcrestal periodontal defects in Rhesus monkeys: A histological investigation. Etel, R. G. et al. 342
GRANULOMA, eosinophilic
Periodontal manifestations of adult onset of histiocytosis X. Artzi, Z. et al. 57
GRANULOMA, pyogenic
The development during pregnancy of pyogenic granulomas superimposed upon a congenital hemangioma: A case report. Tervahartiala, B. et al. 358
GROUP PRACTICE
Early career experiences of young periodontists. Born, D. O., et al. 217
GUIDED TISSUE REGENERATION
Evaluation of guided tissue regeneration in Class II furcation defects. A clinical re-entry study. Lekovic, V. et al. 694

H

HAND-SCHULLER-CHRISTIAN syndrome
Periodontal manifestations of adult onset of histiocytosis X. Artzi, Z. et al. 57
HEALTH EDUCATION, DENTAL
The effect of health beliefs on the compliance of periodontal patients with oral hygiene instructions. Kühner, M. K. et al. 51
HEMANGIOMA
The development during pregnancy of pyogenic granulomas superimposed upon a congenital hemangioma: A case report. Tervahartiala, B. et al. 358
HEMOGLOBIN
The glycosylated hemoglobin assay for diabetes: Its value to the periodontist. Two case reports. Piché, J. E. et al. 640
HISTIOCYTOSIS X, diagnosis
Periodontal manifestations of adult onset of histiocytosis X. Artzi, Z. et al. 57
HYDROXYLAPATITE
Comparison of freeze-dried bone allograft and porous hydroxylapatite in human periodontal defects. Barnett, J. D. et al. 231
Detachment of oral bacteria from saliva-coated hydroxyapatite by human polymorphonuclear leukocytes. Erard, J.-C. et al. 211
5-Year evaluation of durapatite ceramic alloplastic implants in periodontal osseous defects. Yukna, R. A. et al. 544
Histologic evaluation of bone inductive proteins complexed with coralline hydroxylapatite in an extraskeletal site of the rat. Glass, D. A. et al. 121
Porous hydroxyapatite grafts in chronic subcrestal periodontal defects in Rhesus monkeys: A histological investigation. Etel, R. G. et al. 342
HYPEROXALURIA
Periodontal manifestations of hyperoxaluria and oxalosis. Moskow, B. S. 271
HYPERPLASIA, GINGIVAL
Nitrenidipine-induced gingival overgrowth in dogs. Heijl, L. et al. 104
HYPOPLASIA, FOCAL DERMAL
Focal dermal hypoplasia. Current concepts and differential diagnosis. Greer, R. O. Jr. et al. 330

I

IgG ANTIBIODIES
Antibodies to *Bacteroides gingivalis* in patients with treated and untreated periodontal diseases. Murray, P. A. et al. 96
IgG IMMUNOGLOBULINS
IgG subclasses in gingival crevicular fluid from active versus stable periodontal sites. Reinhardt, R. A. et al. 44
IMAGING, COMPUTER-BASED
Computer based thermal imaging of human gingiva: Preliminary investigation. Barnett, M. L. et al. 628
IMMUNE, RESPONSE
Humoral immune response to selected subgingival plaque microorganisms in insulin-dependent diabetic children. Morinishi, T. et al. 199
IMPLANT MATERIALS
5-Year evaluation of durapatite ceramic alloplastic implants in periodontal osseous defects. Yukna, R. A. et al. 544
INFLAMMATION, prevention
The effect of a 0.125% chlorhexidine rinse on inflammation after periodontal surgery. Vaughn, M. E. et al. 704
IN MEMORIAM
Bernier, J. 293
Conroy, C. 293
Corkern, R. W. 293
Hartman, H. 293
Johnson, R. F., Jr. 293
Jones, W. H. 293
Kesel, R. G. 293
Mancine, J. H. 293
Phillips, S. W. 293
Yoon, N. A. 293
INTERDENTAL BLEEDING INDEX
Comparative effectiveness of flossing and brushing in reducing interproximal bleeding. Graves, R. C. et al. 243
Correlations among gingival indices: A methodology study. Lobene, R. R. et al. 159

Effects of personal oral hygiene and subgingival scaling on bleeding interdental gingiva. Caton, J. et al. 84
IONTOPHORESIS
Effectiveness of sodium fluoride on tooth hypersensitivity with and without iontophoresis. Kern, D. A. et al. 386

J

JOURNAL OF PERIODONTOLOGY
Readership survey. 591
Editorial policies. 2
Instructions to authors. 426, 481, 529, 643
JUVENILE PERIODONTITIS. *see* PERIODONTITIS, JUVENILE.

L
LETTERER-SIEW SYNDROME
Periodontal manifestations of adult onset of histiocytosis X. Artzi, Z. et al. 57
LETTERS TO THE EDITOR 413, 414, 592
LEUKOCYTES, polymorphonuclear
Detachment of oral bacteria from saliva-coated hydroxyapatite by human polymorphonuclear leukocytes. Erard, J.-C. et al. 211
LEUKOTOXICITY
Actinobacillus actinomycetemcomitans serotypes and leukotoxicity in Korean localized juvenile periodontitis. Chung, H.-J. et al. 506
LEVAMISOLE, therapeutic use
Effects of levamisole on experimental periodontitis. Novak, M. J. et al. 137
LIPOPROTEINS, SERUM
Suppression of fibroblast growth by *Bacteroides gingivalis* endotoxin is not reduced by serum lipoproteins. Layman, D. L. et al. 259
LONGITUDINAL STUDY
5-Year evaluation of durapatite ceramic alloplastic implants in periodontal osseous defects. Yukna, R. A. et al. 544

M

MEETING ANNOUNCEMENTS 292
METRONIDAZOLE
The effect of 1% metronidazole gel in routine maintenance of persistent furcation involvement in human beings. Needleman, I. G. et al. 699
Letter to the editor. Newman, H. 414
MODELS, ANIMAL
Periodontitis in sheep: A model for human periodontal disease. Ismaiel, M. O. et al. 279
MODIFIED GINGIVAL INDEX
Correlations among gingival indices: A methodology study. Lobene, R. R. et al. 159
MOUTH MUCOSA
Buccal mucosal graft: Maintenance of phenotype for 15 years. A case report. Checchi, L. et al. 163
MOUTHWASHES
A clinical comparison of antibacterial mouthrinses: Effects of chlorhexidine, phenolics, and sanguinarine on dental plaque and gingivitis. Grossman, E. et al. 435
Comparison of chlorhexidine delivery by mouthwash and spray on plaque accumulation. Kalaga, A. et al. 127
Guest Editorial. The Mouthrinse Wars. Mandel, I. 478
MOUTHWASHES, therapeutic use
Clinical enhancement of post-periodontal surgical therapy by a 0.12% chlorhexidine gluconate mouthrinse. Sanz, M. et al. 570
The effect of a 0.125% chlorhexidine rinse on inflammation after periodontal surgery. Vaughn, M. E. et al. 704
The effect of an antimicrobial mouthrinse on early healing of gingival flap surgery wounds. Zambon, J. J. et al. 31
In vitro activity of a chlorhexidine-containing mouthwash against subgingival bacteria. Wade, W. G. et al. 521

N

NEOVASCULARIZATION
Neovascularization of surface demineralized dentin. Tweden, K. S. et al. 460
NEUTROPENIA
Periodontitis in a patient with chronic neutropenia. Carrassi, A. et al. 352
NEUTROPHILS
Chemotaxis of gingival neutrophils: Scanning electron microscopy. Farber, P. A. 540
Defective neutrophil chemotaxis in Down's syndrome patients and its relationship to periodontal destruction. Izumi, Y. et al. 238
NICOTINE
The presence of nicotine on root surfaces of periodontally diseased teeth in smokers. Cuff, M. J. A. et al. 564
NITRENDIPINE, adverse effects
Nitrenidipine-induced gingival overgrowth in dogs. Heijl, L. et al. 104

O
OFLOXACIN, therapeutic use
The effect of ofloxacin on experimental periodontitis in hamsters infected with *Actinomyces viscosus* ATCC 15987. Kametaka, S. et al. 285
ORAL CAVITY, microbiology
Eikenella corrodens in the human oral cavity. Chen, C-K C. et al. 611
ORAL HYGIENE
The effect of health beliefs on the compliance of periodontal patients with oral hygiene instructions. Kühner, M. K. et al. 51
Effect on periodontal status of rotary electric toothbrushes vs. manual toothbrushes during periodontal maintenance. I. Clinical results. Boyd, R. L. et al. 390
Effect on periodontal status of rotary electric toothbrushes vs. manual toothbrushes during periodontal maintenance. II. Microbiological results. Murray, P. A. et al. 397
Effects of personal oral hygiene and subgingival scaling on bleeding interdental gingiva. Caton, J. et al. 84
Oral hygiene and the prevalence of oral group D *Streptococci* in medically-physically compromised and periodontal disease patients. McCrary, B. R. et al. 255
The use of 0.2% chlorhexidine spray as an adjunct to oral hygiene and gingival health in physically and mentally handicapped adults. Kalaga, A. et al. 381

ORAL IRRIGATION
Effect of a chemotherapeutic agent delivered by an oral irrigation device on plaque, gingivitis, and subgingival microflora. Ciancio, S. G. et al. 310
Letter to the editor. Newman, H. 414
ORAL MANIFESTATIONS
Periodontal manifestations of adult onset of histiocytosis X. Artzi, Z. et al. 57
Periodontal manifestations of hyperoxaluria and oxalosis. Moskow, B. S. 271
Unusual periodontal findings in an AIDS patient with Burkitt's lymphoma. A case report. Vallejo, G. H. et al. 723
OSTEOGENESIS
The effect of local doxycycline with and without tricalcium phosphate on the regenerative healing potential of periodontal osseous defects in dogs. Al-Ali, W. et al. 582
Histologic evaluation of bone inductive proteins complexed with coralline hydroxylapatite in an extraskeletal site of the rat. Glass, D. A. et al. 121
The osteogenic potential of two human demineralized bone preparations using a xenogeneic model. Marinak, K. W. et al. 12
Periosteal microvasculature in the dog alveolar process. Nobuto, T. et al. 709
OSTEOMYELITIS
Osteomyelitis associated with chronic periodontitis: report of three cases. Parrish, L. C. et al. 716
OSTEONECTIN
Connective tissue-associated proteins in crevicular fluid: Potential markers for periodontal diseases. Bowers, M. R. et al. 448
OXALOSIS
Periodontal manifestations of hyperoxaluria and oxalosis. Moskow, B. S. 271

P

PALEODONTOLOGY
The hard evidence of alveolar bone loss in early hominids of Southern Africa. A short communication. Ripamonti, U. 118
PAPILLARY BLEEDING INDEX
Correlations among gingival indices: A methodology study. Lobene, R. R. et al. 159
PARESTHESIA
Unusual periodontal findings in an AIDS patient with Burkitt's lymphoma. A case report. Vallejo, G. H. et al. 723
PATIENT COMPLIANCE
The effect of health beliefs on the compliance of periodontal patients with oral hygiene instructions. Kühner, M. K. et al. 51
PENICILLIN, therapeutic use
Effects of penicillin and erythromycin on the clinical parameters of the periodontium. Helovuo, H. et al. 467
PERIODONTAL ABSCESS
Osteomyelitis associated with chronic periodontitis: a report of three cases. Parrish, L. C. et al. 716
PERIODONTAL ATTACHMENT
Effect of periodontal dressings on human gingival fibroblasts *in vitro*. Eber, R. M. et al. 429
Evaluation of guided tissue generation in Class II furcation defects. A clinical re-entry study. Lekovic, V. et al. 694
Histologic evaluation of new attachment apparatus formation in humans. Part I. Bowers, G. M. et al. 664
Histologic evaluation of new attachment apparatus formation in humans. Part II. Bowers, G. M. et al 675
Histologic evaluation of new attachment apparatus formation in humans. Part III. Bowers, G. M. et al. 683
Periodontal ligament cells and gingival fibroblasts respond differently to attachment factors in vitro. Somerman, M. J. et al. 73
Prevalence of periodontal breakdown in adolescents and presence of *Actinobacillus actinomycetemcomitans* in subjects with attachment loss. Van der Velden, U. et al. 604
PERIODONTAL DISEASES, adverse effects
The presence of nicotine on root surfaces of periodontally diseased teeth in smokers. Cuff, M. J. A. et al. 564
Proximal bone loss adjacent to periodontally "hopeless" teeth with and without extraction. Machtei, E. E. et al. 512
PERIODONTAL DISEASES, diagnosis
Cotinine in saliva and gingival crevicular fluid of smokers with periodontal disease. McGuire, J. R. et al. 176
Unusual periodontal findings in an AIDS patient with Burkitt's lymphoma. A case report. Vallejo, G. H. et al.
PERIODONTAL DISEASES, drug therapy
Application of a local drug delivery system to periodontal therapy. I. Development of collagen preparations with immobilized tetracycline. Minabe, M. et al. 113
PERIODONTAL DISEASES, epidemiology
An estimate of periodontal treatment needs in the U.S. based on epidemiologic data. Oliver, R. C. et al. 371
Guest Editorial. Estimating periodontal treatment needs from epidemiological data. Douglass, C. W. 417
PERIODONTAL DISEASES, etiology
Antibodies to *Bacteroides gingivalis* in patients with treated and untreated periodontal diseases. Murray, P. A. et al. 96
Defective neutrophil chemotaxis in Down's syndrome patients and its relationship to periodontal destruction. Izumi, Y. et al. 238
PERIODONTAL DISEASES, microbiology
Effect of 0.12% chlorhexidine on bacterial recolonization following periodontal surgery. Newman, M. G. et al. 577
Oral hygiene and the prevalence of oral group D *Streptococci* in medically-physically compromised and periodontal disease patients. McCrary, B. R. et al. 255
Quantification of bacterial penetration in spontaneous periodontal disease in beagle dogs. Coons, D. B. et al. 23
Periodontitis in a patient with chronic neutropenia. Carrassi, A. et al. 352
PERIODONTAL DISEASES, occurrence
Clinical periodontal status of regularly attending patients in general dental practice. McFall, W. T., Jr. et al. 145
Periodontal diseases in the U.S. in 1982: Prevalence, severity, extent, and role in tooth mortality. Brown, L. J. et al. 363
Prevalence of periodontal breakdown in adolescents and presence of *Actinobacillus actinomycetemcomitans* in subjects with attachment loss. Van der Velden, U. et al. 604

PERIODONTAL DISEASES, pathogenesis
Quantification of bacterial penetration in spontaneous periodontal disease in beagle dogs. Coons, D. B. et al. 23
PERIODONTAL DISEASES, radiology
Relationship between the radiographic periodontal defect angle and healing after treatment. Steffensen, B. et al. 248
PERIODONTAL DISEASES, surgery
Buccal mucosal graft: Maintenance of phenotype for 15 years. A case report. Checchi, L. et al. 163
Clinical enhancement of post-periodontal surgical therapy by a 0.12% chlorhexidine gluconate mouthrinse. Sanz, M. et al. 570
Comparison of decalcified freeze-dried bone allograft and porous particulate hydroxyapatite in human periodontal osseous defects. Bowen, J. A. et al. 647
A comparison of freeze-dried bone allograft and demineralized freeze-dried bone allograft in human periodontal osseous defects. Rummelhart, J. M. et al. 655
Comparison of freeze-dried bone allograft and porous hydroxylapatite in human periodontal defects. Barnett, J. D. et al. 231
Different cross-linked types of collagen implanted in rat palatal gingiva. Minabe, M. et al. 35
Effect of 0.12% chlorhexidine on bacterial recolonization following periodontal surgery. Newman, M. G. et al. 577
The effect of a 0.125% chlorhexidine rinse on inflammation after periodontal surgery. Vaughn, M. E. et al. 704
Periosteal microvasculature in the dog alveolar process. Nobuto, T. et al. 709
Porous hydroxyapatite grafts in chronic subcrestal periodontal defects in Rhesus monkeys: A histological investiagtion. Ettel, R. G. et al. 342
PERIODONTAL DISEASES, therapy
Clinical enhancement of post-periodontal surgical therapy by a 0.12% chlorhexidine gluconate mouthrinse. Sanz, M. et al. 570
The effect of various concentrations of collagen barrier on periodontal wound healing. Kodama, T. et al. 205
Effect on periodontal status of rotary electric toothbrushes vs. manual toothbrushes during periodontal maintenance. I. Clinical results. Boyd, R. L. et al. 390
Effect on periodontal status of rotary electric toothbrushes vs. manual toothbrushes during periodontal maintenance. II. Microbiological results. Murray, P. A. et al. 397
5-Year evaluation of durapatite ceramic alloplastic implants in periodontal osseous defects. Yukna, R. A. et al. 544
The gingival effects of dental airpolishing as evaluated by scanning electron microscopy. Kontturi-Narhi, V. et al. 19
Letter to the editor. Chace, R. et al.; Kaldahl, W. et al. 592
The prognosis of tunnel preparations in treatment of class III furcations. A follow-up study. Hellden, L. B. et al. 182
PERIODONTAL DRESSINGS
Human freeze-dried dura mater allografts as a periodontal biological bandage. Zaner, D. J. et al. 617
PERIODONTAL INDEX
Clinical periodontal status of regularly attending patients in general dental practice. McFall, W. T., Jr. et al. 145
PERIODONTAL LIGAMENT
Histologic evaluation of a new attachment apparatus formation in humans. Part I. Bowers, G. M. et al. 664
Histologic evaluation of new attachment apparatus formation in humans. Part II. Bowers, G. M. et al. 675
Histologic evaluation of new attachment apparatus formation in humans. Part III. Bowers, G. M. et al. 683
Periodontal ligament cells and gingival fibroblasts respond differently to attachment factors *in vitro*. Somerman, M. J. et al. 73
Repopulation of dentin surfaces by periodontal ligament cells and endothelial cells. Effect of basic fibroblast growth factor. Terranova, V. P. et al. 293
PERIODONTAL POCKETS
Evaluation of guided tissue regeneration in Class II furcation defects. A clinical re-entry study. Lekovic, V. et al. 694
PERIODONTAL POCKETS, drug therapy
Subgingival administration of tetracycline on a collagen film. Minabe, M. et al. 552
PERIODONTAL POCKETS, microbiology
The effect of 2% chlorhexidine digluconate irrigation on clinical parameters and the level of *Bacteriodes gingivalis* in periodontal pockets. Southard, S. R. et al. 302
PERIODONTAL POCKETS, therapy
Effect of subgingival irrigation with tetrapotassium peroxydiphosphate on scaled and untreated periodontal pockets. Listgarten, M. A. et al. 4
Letter to the editor. Rethman, M. Listgarten, M. A.
PERIODONTISTS
Early career experiences of young periodontists. Born, D. O. et al. 217
PERIODONTITIS
Periodontitis in sheep: A model for human periodontal disease. Ismaiel, M. O. et al. 279
Osteomyelitis associated with chronic periodontitis: report of three cases. Parrish, L. C. et al. 716
PERIODONTITIS, diagnosis
Clinical and laboratory characterization of early onset periodontitis. Astemborksi, J. A. et al. 557
IgG subclasses in gingival crevicular fluid from active versus stable periodontal sites. Reinhardt, R. A. et al. 44
PERIODONTITIS, drug therapy
The effect of 2% chlorhexidine digluconate irrigation on clinical parameters and the level of *Bacteroides gingivalis* in periodontal pockets. Southard, S. R. et al. 302
Subgingival administration of tetracycline on a collagen film. Minabe, M. et al. 552
PERIODONTITIS, epidemiology
An estimate of periodontal treatment needs in the U. S. based on epidemiologic data. Oliver, R. C. et al. 371
PERIODONTITIS, etiology
Guest Editorial. Etiology of periodontitis: The heterogeneity paradigm. Potter, R. H. 593
PERIODONTITIS, immunology
Clinical and microbiological characteristics of treated periodontitis patients on maintenance care. Listgarten, M. A. et al. 452
IgG subclasses in gingival crevicular fluid from active versus stable periodontal sites. Reinhardt, R. A. et al. 44
PERIODONTITIS, microbiology
Quantification of bacterial penetration in spontaneous peri-

odontal disease in beagle dogs. Coons, D. B. et al. 23
PERIODONTITIS, pathogenesis
Quantification of bacterial penetration in spontaneous periodontal disease in beagle dogs. Coons, D. B. et al. 23
PERIODONTITIS, prevention
In vitro activity of a chlorhexidine-containing mouthwash against subgingival bacteria. Wade, W. G. et al. 521
PERIODONTITIS, therapy
Clinical and microbiological characteristics of treated periodontitis patients on maintenance care. Listgarten, M. A. et al. 452
The effect of ofloxacin on experimental periodontitis in hamsters infected with *Actinomyces viscosus* ATCC 15987. Kametaka, S. et al. 285
Effects of adjunctive treatment of periodontitis with tetracycline and spiramycin. Al-Joburi, W. et al. 533
Effects of levamisole on experimental periodontitis. Novak, M. J. et al. 137
Tooth loss in patients with moderate periodontitis after treatment and long-term maintenance care. Wood, W. R. et al. 516
PERIODONTITIS, JUVENILE
Actinobacillus actinomycetemcomitans serotypes and leukotoxicity in Korean localized juvenile periodontitis. Chung, H.-J. et al. 506
Effect of various graft material with tetracycline in localized juvenile periodontitis. Evans, G. H. et al. 491
PERIODONTIUM
Effects of penicillin and erythromycin on the clinical parameters of the periodontium. Helovuo, H. et al. 467
PERIOSTEUM
Periosteal microvasculature in the dog alveloar process. Nobuto, T. et al. 709
PHENOLIC COMPOUNDS
A clinical comparison of antibacterial mouthrinses: Effects of chlorhexidine, phenolics, and sanguinarine on dental plaque and gingivitis. Grossman, E. et al. 435
PLANING
Effects of adjunctive treatment of periodontitis with tetracycline and spiramycin. Al-Joburi, W. et al. 533
Fiber optic probe augmented sonic scaling versus conventional sonic scaling. Johnson, G. K. et al. 131
Histologic evaluation of new attachment apparatus formation in humans. Part I. Bowers, G. M. et al. 664
Scaling and root planing effectiveness: The effect of root surface access and operator experience. Brayer, W. K. et al. 67
Scaling and root planing efficacy in multirooted teeth. Fleischer, H. C. et al. 402
A scanning electron micrographical study of root surfaces and subgingival bacteria after hand and ultrasonic instrumentation. Garnick, J. J. et al. 441
Tooth loss in patients with moderate periodontitis after treatment and long-term maintenance care. Wood, W. R. et al. 516
PLAQUE, microbiology
Humoral immune response to selected subgingival plaque microorganisms in insulin-dependent diabetic children. Morinishi, T. et al. 199
In vitro activity of a chlorhexidine-containing mouthwash against subgingival bacteria. Wade, W. G. et al. 521
Morphotypes of the subgingival microflora in diabetic adolescents in Finland. Sandholm, L. et al. 526
A scanning electron micrographical study of root surfaces and subgingival bacteria after hand and ultrasonic instrumentation. Garnick, J. J. et al. 441
PLAQUE, occurrence
The relationship between gingivitis and plaque levels. Breuer, M. M. et al. 172
PLAQUE, prevention
A clinical comparison of antibacterial mouthrinses: Effects of chlorhexidine, phenolics, and sanguinarine on dental plaque and gingivitis. Grossman, E. et al. 435
Clinical effect of a sanguinaria dentifrice on plaque and gingivitis in adults. Mallatt, M. E. et al. 91
Comparison of chlorhexidine delivery by mouthwash and spray on plaque accumulation. Kalaga, A. et al. 127
Effect of a chemotherapeutic agent delivered by an oral irrigation device on plaque, gingivitis, and subgingival microflora. Ciancio, S. G. et al. 310
Effect of 0.12% chlorhexidine on bacterial recolonization following periodontal surgery. Newman, M. G. et al. 557
The effect of citric acid on retained plaque and calculus. A short communication. Tanaka, K. et al. 81
Evaluating the anti-plaque capabilities of a copper-containing prophylaxis paste. Moore, R. L. et al. 78
PLAQUE, therapy
The effect of a new electric toothbrush on supragingival plaque and gingivitis. Baab, D. A. et al. 336
The effectiveness of a counter-rotary action powered toothbrush and conventional toothbrush on plaque removal and gingival bleeding. A short term study. Killoy, W. J. et al. 473
PLAQUE INDEX
The relationship between gingivitis and plaque levels. Breuer, M. M. et al. 172
POTASSIUM OXALATE, therapeutic use
Effects of potassium oxalate on dentin hypersensitivity in vivo. Muzzin, K. B. et al. 151
PREGNANCY
The development during pregnancy of pyogenic granulomas superimposed upon a congenital hemangioma: A case report. Tervahartiala, B. et al. 358
PRIVATE PRACTICE
Clinical periodontal status of regularly attending patients in general dental practice. McFall, W. T., Jr. et al. 145
Early career experiences of young periodontists. Born, D. O. et al. 217
PROPHYLAXIS PASTE
Evaluating the anti-plaque capabilities of a copper-containing prophylaxis paste. Moore, R. L. et al. 78
PROTEINS, BONE-INDUCTIVE
Histologic evaluation of bone inductive proteins complexed with coralline hydroxylapatite in an extraskeletal site of the rat. Glass, D. A. et al. 121

R

RISK FACTORS
Oral hygiene and the prevalence of oral group D *Streptococci* in medically-physically compromised and periodontal disease patients. McCrary, B. R. et al. 255

ROOT
Caries on root surfaces exposed following gingivectomy in conventional rats infected with *Streptococcus sobrinus* and *Actinomyces viscosus*. Firestone, A. R. et al. 624
Effects of adjunctive treatment of periodontitis with tetracycline and spiramycin. Al-Joburi, W. et al. 533
Effects of personal oral hygiene and subgingival scaling on bleeding interdental gingiva. Caton, J. et al. 84
The presence of nicotine on root surfaces of periodontally diseased teeth in smokers. Cuff, M. J. A. et al. 564
Histologic evaluation of new attachment apparatus formation in humans. Part II. Bowers, G. M. et al. 675
Scaling and root planing effectiveness: The effect of root surface access and operator experience. Brayer, W. K. et al. 67
Scaling and root planing efficacy in multirooted teeth. Fleischer, H. C. et al. 402
Tooth loss in patients with moderate periodontitis after treatment and long-term maintenance care. Wood, W. R. et al. 516
ROOT, anatomy
A scanning electron micrographical study of root surfaces and subgingival bacteria after hand and ultrasonic instrumentation. Garnick, J. J. et al. 441

S

SALIVA, analysis
Cotinine in saliva and gingival crevicular fluid of smokers with periodontal disease. McGuire, J. R. et al. 176
SANGUINARIA
Clinical effect of a sanguinaria dentifrice on plaque and gingivitis in adults. Mallatt, M. E. et al. 91
SANGUINARINE
A clinical comparison of antibacterial mouthrinses: Effects of chlorhexidine, phenolics, and sanguinarine on dental plaque and gingivitis. Grossman, E. et al. 435
SCALING
The effectiveness of two sonic and two ultrasonic scaler tips in furcations. Patterson, M. et al. 325
Effects of adjunctive treatment of periodontitis with tetracycline and spiramycin. Al-Joburi, W. et al. 533
Effects of personal oral hygiene and subgingival scaling on bleeding interdental gingiva. Caton, J. et al. 84
Fiber optic probe augmented sonic scaling versus conventional sonic scaling. Johnson, G. K. et al. 131
Scaling and root planing effectiveness: The effect of root surface access and operator experience. Brayer, W. K. et al. 67
Scaling and root planing efficacy in multirooted teeth. Fleischer, H. C. et al. 402
A scanning electron micrographical study of root surfaces and subgingival bacteria after hand and ultrasonic instrumentation. Garnick, J. J. et al. 441
Tooth loss in patients with moderate periodontitis after treatment and long-term maintenance care. Wood, W. R. et al. 516
SEROTYPES
Actinobacillus actinomycetemcomitans serotypes and leukotoxicity in Korean localized juvenile periodontitis. Chung, H.-J. et al. 506
SODIUM FLUORIDE
Effectiveness of sodium fluoride on tooth hypersensitivity with and without iontophoresis. Kern, D. A. et al. 386
SONICS
The effectiveness of two sonic and two ultrasonic scaler tips in furcations. Patterson, M. et al. 325
Fiber optic probe augmented sonic scaling versus conventional sonic scaling. Johnson, G. K. et al. 131
SPIRAMYCIN
Effects of adjunctive treatment of periodontitis with tetracycline and spiramycin. Al-Joburi, W. et al. 533
SPRAYS
Comparison of chlorhexidine delivery by mouthwash and spray on plaque accumulation. Kalaga, A. et al. 127
The use of 0.2% chlorhexidine spray as an adjunct to oral hygiene and gingival health in physically and mentally handicapped adults. Kalaga, A. et al. 381
STANNOUS FLUORIDE
Letter to the editor. Newman, H. 414
STREPTOCOCCI, GROUP D
Oral hygiene and the prevalence of oral group D *Streptococci* in medically-physically compromised and periodontal disease patients. McCrary, B. R. et al. 255
STREPTOCOCCUS SANGUIS
Detachment of oral bacteria from saliva-coated hydroxyapatite by human polymorphonuclear leukocytes. Erard, J.-C. et al. 211
STREPTOCOCCUS SOBRINUS
Caries on root surfaces exposed following gingivectomy in conventional rats infected with *Streptococcus sobrinus* and *Actinomyces viscosus*. Firestone, A. R. et al. 624
SURGICAL FLAPS
The effect of an antimicrobial mouthrinse on early healing of gingival flap surgery wounds. Zambon, J. J. et al. 31
Evaluation of guided tissue regeneration in Class II furcation defects. A clinical re-entry study. Lekovic, V. et al. 694

T

TEMPOROMANDIBULAR JOINT DISORDERS
Summary of the Workshop on Temporomandibular Disorders sponsored by the American Dental Association. Ohrbach, R. et al. 222
TETRACYCLINE
Letter to the editor. Newman, H. 414
TETRACYCLINE, therapeutic use
Application of a local drug delivery system to periodontal therapy. I. Development of collagen preparations with immobilized tetracycline. Minabe, M. et al. 113
Effect of various graft materials with tetracycline in localized juvenile periodontitis. Evans, G. H. et al. 491
Effects of adjunctive treatment of periodontitis with tetracycline and spiramycin. Al-Joburi, W. et al. 533
Subgingival administration of tetracycline on a collagen film. Minabe, M. et al. 552
TETRAPOTASSIUM PEROXYDIPHOSPHATE
Effect of subgingival irrigation with tetrapotassium peroxydiphosphate on scaled and untreated periodontal pockets. Listgarten, M. A. et al. 4
Letter to the editor. Listgarten, M. A. et al. 413

TOBACCO
Cotinine in saliva and gingival crevicular fluid of smokers with periodontal disease. McGuire, J. R. et al. 176
The presence of nicotine on root surfaces on periodontally diseased teeth in smokers. Cuff, M. J. A. et al. 564
TOOTH, SUPERNUMERARY
A supernumerary tooth located at the facial of a mandibular lateral incisor: A case report. Krayer, J. W. 410
TOOTH EXTRACTION
Proximal bone loss adjacent to periodontally "hopeless" teeth with and without extraction. Machtei, E. E. et al. 512
TOOTH LOSS
Periodontal diseases in the U.S. in 1981: Prevalence, severity, extent, and role in tooth mortality. Brown, L. J. et al. 363
Tooth loss in patients with moderate periodontitis after treatment and long-term maintenance care. Wood, W. R. et al. 516
TOOTH POLISHING
The gingival effects of dental airpolishing as evaluated by scanning electron microscopy. Kontturi-Narhi, V. et al. 19
TOOTHBRUSHING
Comparative effectiveness of flossing and brushing in reducing interproximal bleeding. Graves, R. C. et al. 243
The effect of a new electric toothbrush on supragingival plaque and gingivitis. Baab, D. A. et al. 336
Effect on periodontal status of rotary electric toothbrushes vs. manual toothbrushes during periodontal maintenance. I. Clinical results. Boyd, R. L. et al. 390
Effect on periodontal status of rotary electric toothbrushes vs. manual toothbrushes during periodontal maintenance. II. Microbiological results. Murray, P. A. et al. 397
The effectiveness of a counter-rotary action powered toothbrush and conventional toothbrush on plaque removal and gingival bleeding. A short term study. Killoy, W. J. et al. 473
The use of 0.2% chlorhexidine spray as an adjunct to oral hygiene and gingival health in physically and mentally handicapped adults. Kalaga, A. et al. 381
TRICALCIUM PHOSPHATE
The effect of local doxycycline with and without tricalcium phosphate on the regenerative healing potential of periodontal osseous defects in dogs. Al-Ali, W. et al. 582

U

ULTRASONICS
The effectiveness of two sonic and two ultrasonic scaler tips in furcations. Patterson, M. et al. 325
Fiber optic probe augments sonic scaling versus conventional sonic scaling. Johnson, G. K. et al. 131
In vitro effectiveness of a newly-designed ultrasonic scaler tip for furcation areas. Oda, S. et al. 634
A scanning electron micrographical study of root surfaces and subgingival bacteria after hand and ultrasonic instrumentation. Garnick, J. J. et al. 441

W

WORKSHOP ON TEMPOROMANDIBULAR JOINT DISORDERS
Summary of the Workshop on Temporomandibular Disorders sponsored by the American Dental Association. Ohrbach, R. et al. 222
WOUND HEALING
Different cross-linked types of collagen implanted in rat palatal gingiva. Minabe, M. et al. 35
The effect of a 0.125% chlorhexidine rinse on inflammation after periodontal surgery. Vaughn, M. E. et al. 704
The effect of an antimicrobial mouthrinse on early healing of gingival flap surgery wounds. Zambon, J. J. et al. 31
The effect of local doxycycline with and without tricalcium phosphate on the regenerative healing potential of periodontal osseous defects in dogs. Al-Ali, W. et al. 582
The effect of various concentrations of collagen barrier on periodontal wound healing. Kodama, T. et al. 205
Neovascularization of surface demineralized dentin. Tweden, K. S. et al. 460
Periosteal microvasculature in the dog alveolar process. Nobuto, T. et al. 709
Relationship between the radiographic periodontal defect angle and healing after treatment. Steffensen, B. et al. 248
